

Legal Aspects of Clinical Teaching

Instructor: JoAn Stanek, DNP, RN, MSN, ANP, CHPN

Length: 1 hour

Program Description: Provide training to expert clinicians on how to become clinical instructors to serve in a dual role: as a clinical instructor while remaining at the bedside.

Learning Objectives: At the end of this program, participants will be able to:

- Discuss student rights.
- Explore educational, regulatory and accreditation standards.
- Review who is responsible for patient care.
- Review FERPA.
- Discuss licensure, “is the student working under the instructor’s license?”
- Review legal responsibilities of the CIP.

Audience:

Practicing RNs with little to no teaching experience serving in a dual role as a clinical instructor while remaining at the bedside
