

## **NC Nursing Workforce: Realities, Challenges, Opportunities**

**Instructor:** Cheryl B. Jones, PhD, RN, FAAN

**Length:** 1 hour

**Program Description:** This program offers participants the opportunity to learn the importance of collaboration and connections between academic and clinical settings for interdisciplinary research success by examining specific research studies.

**Learning Objectives:** At the end of this program, participants will be able to:

- Describe the state of the nursing workforce in NC using information from NC Nursecast
- Discuss effective strategies to address the nursing workforce needs of eastern NC

**Audience:**

Registered nurses in any practice setting, faculty in schools of nursing, as well as graduate and undergraduate nursing students
