

## **Patient-and-Family-Centered Reproductive Care for Transgender and Nonbinary Patients**

**Instructor:** Rhonda Lanning, DNP, CNM, LCCE, IBCLC, RN and Beth Mann, BSN, RN

**Length:** 1 hour

**Program Description:** This program is designed to provide nurses, providers, and other healthcare professionals the most current clinical guidance related to complex issues in outpatient and inpatient perinatal settings. Health care professionals will be challenged to "keep current" as they provide care, treatment and choices to transgender and nonbinary families.

**Learning Objectives:** At the end of this program, participants will be able to:

- Communicate in a therapeutic and affirming manner with pregnant and new parent transgender and nonbinary patients.
- Discuss strategies to provide safe, patient-and family-centered reproductive care to transgender and nonbinary patients.

**Audience:**

Providers, APPs, Nurses, Doulas, from both inpatient and outpatient settings
